the Tacuari under my Command
for Humaita, but finding the "Rio
Blanco" aground I determined to
tow her off if possible, & have tried
to do so for six hours, without
effect. I have taken out the two
Boxes of Specie (Plata) will also
take on board 10 Mulas Yerta-
& proceed at once for Humaita.

I would recommend to your Excellency
that one of the Government Schooners
should be sent from Asuncion,
alongside "Rio Blanco" & take out
all her Cargo & proceed with it
